

Personal Details:

LAST NAME: Nasim

FIRST NAME: Alipour

Address: Department of Anesthesiology, School of Para-Medicine, Hamadan University of Medical Sciences,
Hamadan, Iran

Tel: **08138381037**

E-mail: N.alipour@umsha .ac.ir

Academic Rank

Instructor

Education and Training

۲۰۲۱	PHD of Nursing	Kermanshah University of Medical Sciences	
2012-2013	Master Degree in critical care Nursing	Lorestan University of Medical Sciences	Thesis Title: Evaluation the Effect of Open and Closed Tracheal Suction on the Incidence of Ventilator Associated Pneumonia and hemodynamic state in Patients of ICU
2006-2008	Bachelor Degree Nursing	Hamadan University of Medical Sciences	
2003-2005	Associate degree in Anesthesia	Hamadan University of Medical Sciences	

Experiences Scientific Position

1. Instructor in Anesthesiology

Hamadan University of Medical Sciences, Hamadan, Iran, 2015- To be continued

Research Interests

1. Pain Management
2. Regional Anesthesia
3. Recovery After Surgery
4. Critical Care Medicine
4. Perioperative patient management

Teaching

1. First Aid Principles
2. Medical Emergency
3. Anesthesia Techniques
4. Post-Anesthesia Care
5. Introduction to Internal Diseases and Surgery
6. Internship
7. Anesthesia

Executive Position

1. **Deputy Dean for Education and Research**
School of Para-Medicine, Hamadan University of Medical Sciences, 2018- 2020
2. **Exceptional Talents representative**
School of Para-Medicine, Hamadan University of Medical Sciences, 2017- To be continued
3. **Adverse Drug Reaction (ADR) representative**
Fatemieh Hospital, Hamadan University of Medical Sciences, 2009-2012

Papers (in English)

Clients' experiences in their first entry to the operating room: a descriptive phenomenological study .N Alipour, A Jalali, R Jalali, A Khatony - Perioperative Medicine, 2025

Investigating the relationship between emotional intelligence and self-esteem with educational performance in paramedical students .N Alipour, S Sangi, M Babamiri, P Arman - Medicina Clínica Práctica, 2024

Comparative Efficacy of Intravenous Midazolam, Midazolam-Ketamine, and Ketamine in Reducing the Prevalence of Post-Spinal Shivering: A Double-Blind Clinical Trial .S Sangi, N Alipour, N Manouchehrian, M Aligholizadeh - Bulletin of Pharmaceutical Sciences Assiut University, 2024.

Psychological impact of the COVID-19 outbreak on Mental Health among Iranians. R Heidarimoghadam, M Babamiri, N Alipour. Iranian Journal of Psychiatry and Behavioral Sciences, 2023

Incidence of Neurotoxic Symptoms in Iranian Anesthesiology Staff: Psychometric Properties of Persian Version of the Euroquest Questionnaire. N Alipour, H Saidnia, R Heidarimoghadam... - Asian Journal of Anesthesiology, 2022

The association between demographic variables and the prevalence of neurotoxic symptoms in operating room personnel .N Alipour, R Heidarimoghadam, M Babamiri - J Occup Hyg Eng, 2020

Research on reducing burnout in health care workers in critical situations such as the COVID-19 outbreak. M Babamiri, N Alipour, R Heidarimoghadam - Work, 2020

Morshed N., Babamiri M., Zemestani M, Alipour N. A Comparative Study on the Effectiveness of Individual and Group Play Therapy on Symptoms of Oppositional Defiant Disorder among Children. Korean journal of family medicine.2019; 40 (6), 368-372

Nikooseresht M, Rabiei MAS, Hajian P, Dastaran R, Alipour N. Comparing the Hemodynamic Effects of Spinal Anesthesia in Preeclamptic and Healthy Parturients During Cesarean Section. Anesthesiology and pain medicine.2016; 6 (3).

Sanatkar M, Sadeghi M, Esmaeili N, Sadrossadat H, Shoroughi M, Alipour N. The hemodynamic effects of spinal block with low dose of bupivacaine and sufentanil in patients with low myocardial ejection fraction. Acta Medica Iranica.2013;51 (7), 438

Papers (in Persian)

N Alipour, SR Borzou, TH Tehrani, Z Khalili .A Comparative Study of the Educational Program of the Master's Degree in Adult Critical Care Nursing at the University of Sharjah and Iran- Avicenna journal of Care and Health in Operating , 2024

S Piri, N Alipour, A Jalali, R Jalali.The Effectiveness of Educational Supervision on the Performance of Nursing Students: A Narrative Review- Journal of Nursing Education, 2024

Alipour N, Shirmohammadi Khorram N, Nikooseresht M, Hajian P, Babamiri M. The Effect of Pre- and Intraoperative Anxiety on Hemodynamic Changes after Spinal Anaesthesia in Cesarean Section. *Avicenna Journal of Clinical Medicine*.2018; 24 (4), 291-298

Alipour N, Asady Fakhr A, Mahdiyoun SA. Study of occupational stress as predictors of nurses' intention to leave. *Iranian Journal of Ergonomics*. 2018; 6 (1), 58-64.

Alipour N, Manouchehrian N, Sanatkar M, Anvari HMP, Jahrom MSS. Evaluation of the Effect of Open and Closed Tracheal Suction on the Incidence of Ventilator Associated Pneumonia in Patients Admitted in the Intensive Care Unit. *Archives of Anesthesiology and Critical Care*.2016; 2 (2), 193-196.

Alipour N , Toulabi T, Manouchehrian N, Rahimi bashar F, Anbari KH. A Comparison of the effect of open and closed endotracheal suctioning on hemodynamic status of patients in the ICU. *Evidence-based Care Journal*.2014; 3 (4), 65-73.

Manouchehrian N, Arjomandi M, Bakhshaeu M.H , Alipour N, Hajian P. Efficacy of Prophylactic Intravenous Dexamethasone in Prevention of Headache Strikes Due to Spinal Anesthesia in Cesarean Sections Compared to the Control Group. *Scientific Journal of Ilam University of Medical Sciences*.2011; 19 (4), 1-11.

Abstracts and Presentations

1. 6th Iranian International Health Care Congress

Title: Medical Ethics in Intensive Care Unit

Location: Tehran

Date: 2018

Type: poster

2. 6th Iranian International Health Care Congress

Title: Evaluating the reasons for the job intention to leave in nurses in ordinary and critical care units

Location: Tehran

Date: 2018

Type: poster

3. 13th Congress of Iranian Pain Society

Title: Evaluation of prescribing oral before surgery and continuing their effects after surgery

Location: Tehran

Date: 2017

Type: poster

4. 13th Congress of Iranian Pain Society

Title: Evaluation of Airway Care of Patients Admitted to Intensive Care Unit of Hamadan, based on Knowledge, Attitude and Practice of Nurses

Location: Tehran

Date: 2017

Type: poster

5. 13th International Congress of Anesthesiology, Intensive Care and Pain Management

Title: The Effect of Pre- and Intraoperative Anxiety on Hemodynamic Changes after Spinal Anaesthesia in Cesarean Section

Location: Tehran

Date: 2016

Type: poster

6. 13th International Congress of Anesthesiology, Intensive Care and Pain Management

Title: The Effect of Pre- and Intraoperative Anxiety on Vomiting and Nausea after Spinal Anaesthesia in Caesarean Section

Location: Tehran

Date: 2016

Type: poster

7. The 8th International Congress of Lung Diseases and the First International Critical Care Course

Title: The effect of Oral Decontamination on Prevention of Ventilator-associated Pneumonia

Location: Shiraz

Date: 2016

Type: poster

8. 7th International Congress of Pulmonary Diseases, Intensive Care and Tuberculosis

Title: Effect of open and closed suction on Ventilator-associated Pneumonia in intensive care patient

Location: Tehran

Date: 2015

Type: poster

9. 12th International Congress of Anesthesiology, Intensive Care and Pain

Title: Anaphylactic shock after induction of anesthesia
Location: Tehran
Date: 2015
Type: poster

10. 12th International Congress of Anesthesiology, Intensive Care and Pain

Title: Effect of Open and Closed System Endotracheal Suctioning on Vital Signs of ICU Patients
Location: Tehran
Date: 2015
Type: poster

11. 12th International Congress of Anesthesiology, Intensive Care and Pain

Title: Evaluation of intensive care unit nurse knowledge and attitude about CPR 2010 protocols at teaching hospitals of Hamadan city.
Location: Tehran
Date: 2015
Type: poster

12. 12th International Congress of Anesthesiology, Intensive Care and Pain

Title: Survey of operating room stressors and its effects on Operating room nurses
Location: Tehran
Date: 2015
Type: poster

13. 12th International Congress of Anesthesiology, Intensive Care and Pain

Title: The effect of Subcutaneous Ketamine Infiltration on Postoperative Pain in Elective Cesarean Section under Spinal Anesthesia
Location: Tehran
Date: 2015
Type: poster
